Dear Parents/Carers

We have recently become aware that a lot of our children are playing the game Roblox. This is a free game available to children for download. After some research and discussing the content of this game with some children we have become increasingly concerned and wanted to share this with you.

This game is for children 12+ years which requires children to play a character that becomes involved in violence, killings of other characters and bad language. There has also been reports of online bullying through the chat rooms on the game. Reviews online also suggest exposure to sexual content whilst playing the game.

We ask all parents to monitor and supervise your child/children when playing online games. If your child does play Roblox please take some time to look at this and decide whether you think it is appropriate for them to be playing it.

If you would like any further information please get in touch.

Kind Regards

Mrs Blemmings
